AMTRAK RIDERSHIP SURGES IN APRIL 18 consecutive months of year-over-year growth

WASHINGTON –Amtrak ridership surged in April to be the best April on record and extends the national passenger railroad's streak to 18 consecutive months of year-over-year ridership growth.

Ridership for April 2011 was nearly 2.7 million passengers which represents an increase of 9.9 percent over April 2010 and keeps America's Railroadsm on track to set a new annual ridership record.

This strong performance is part of a long-term trend that has seen Amtrak set annual ridership records in seven of the last eight fiscal years, including more than 28.7 million passengers in FY 2010.

Comparing the first seven months of FY 2011 (October – April) to the same time period in FY 2010, national Amtrak ridership is up 6.5 percent so far this fiscal year and all three major business lines are showing gains: the Northeast Corridor up 4.8 percent, state-supported and other short distance corridors up 8.1 percent, and long-distance trains up 5.6 percent.

Northeast Highlights

On the Northeast Corridor, ridership for the high-speed *Acela Express* service saw a 2.9 percent increase in April 2011 vs. April 2010. In addition, April was the best month ever for the popular *Northeast Regional* service carrying a record 692,376 passengers which represents a 13.3 percent increase over the same month last year.

Central Highlights

Ridership on Midwestern routes remains strong with significant increases in April 2011 over April 2010. The Chicago hub experienced steep corridor ridership gains as led by the *Blue Water* (Chicago – Port Huron) with a 28.4 percent increase; *Illini/Saluki* (Chicago-Carbondale) trains up 21 percent; the *Wolverine Service* (Chicago-Detroit/Pontiac) up 14 percent; and the *Hiawatha Service* (Chicago-Milwaukee) increased seven percent.

West Highlights

Strong ridership continued in April 2011 on all of the three California state-supported routes when compared to April 2010. The *Capitol Corridor* (Auburn – Sacramento – Emeryville/San Francisco – San Jose) was up 10.8 percent; the *San Joaquin* (Oakland/Sacramento – Bakersfield) up 18.3 percent; and the *Pacific Surfliner* (San Diego – Los Angeles – Santa Barbara – San Luis Obispo) up 8.2 percent over the same month last year. Ridership on the Amtrak *Cascades* (Eugene, Ore. – Seattle – Vancouver, B.C.) also was up 6.9 percent, an increase that comes after months of severe weather related service disruptions on this route.

National Highlights

Among the 15 overnight long-distance Amtrak trains, ridership is up 7.7 percent in April 2011 vs. April 2010, with the largest percentage gains posted by the *Silver Star* (New York – Tampa – Miami) up 16 percent , the *Lake Shore Limited* (New York – Chicago) up 15.3 percent and the *Southwest Chief* (Chicago – Los Angeles) up 14.9 percent.

Factors contributing to the continuing success of Amtrak include strong Easter holiday travel in April, high gasoline prices which have trended higher, continued growth in business travel on the high-speed *Acela Express* trains with Wi-Fi service, the increased appeal and popularity of rail travel, and effective marketing campaigns.

The streak of 18 consecutive months of year-over-year ridership growth began in November 2009.

About Amtrak®:

Celebrating 40 years of dedicated service as America’s Railroadsm, Amtrak is the nation’s intercity passenger rail provider and its only high-speed rail operator. A record 28.7 million passengers traveled on Amtrak in FY 2010 on more than 300 daily trains – at speeds up to 150 mph (241 kph) – that connect 46 states, the District of Columbia and three Canadian Provinces. Amtrak operates trains in partnership with 15 states and four commuter rail agencies. Amtrak also is a strong financial performer achieving an 85 percent cost-recovery ratio in FY 2010.
